

# Cannabis - The Truth Is Out.

Following All the recent mis-information being put about by the Government and certain aspects of the media, this flyer has been produced to help people better understand the benefits from this amazing plant.

Cannabis has never been the cause of one single death.

Cannabis helps Relieve thousands upon thousands of people from pain during illness around the world.

If the government stopped prosecuting cannabis users your TAX BILL would be less due to the Prisoners being free of otherwise law abiding citizens.

Users Cross all social barriers and boundaries - Lawyers, Police-men, Judges, Film Stars, Doctors and Bank Managers.

Don't take this leaflet at face value, do your own research then ask yourself if this is a justified use of government resources to prosecute innocent people.
